MAJED ZIARA

Full Stack Software Engineer

Full Stack Software Engineer with 4+ years of experience designing and building scalable web applications, SaaS platforms, business management systems, and high-performance digital solutions.

Specialized in Laravel and Next.js with strong expertise in backend architecture, RESTful APIs, authentication systems, payment gateway integrations, and modern frontend development.

Passionate about writing clean, maintainable code and transforming complex business requirements into reliable, production-ready software.

PROFESSIONAL EXPERIENCE

2023 – Present

Freelance Full Stack Software Engineer

- Designed and developed custom SaaS platforms and business management systems.
- Built scalable Laravel backends serving complex business workflows.
- Developed modern web applications using Next.js, React, and TypeScript.
- Integrated secure payment gateways, authentication services, and third-party APIs.
- Optimized database performance and application architecture for scalability.
- Collaborated directly with clients from planning to deployment.

2021-2023

Digo Digital Marketing

Full Stack Developer

- Developed and maintained the company's digital platforms.
- Built internal business management systems.
- Delivered responsive websites optimized for SEO and performance.
- Worked closely with marketing and design teams.
